

# MORAR OUTDOOR

## REVEALED

### Key features:

- Application efficient, uniform backlighting
- Waterproof protection
- Flexible & ultra-thin profile
- Modular design

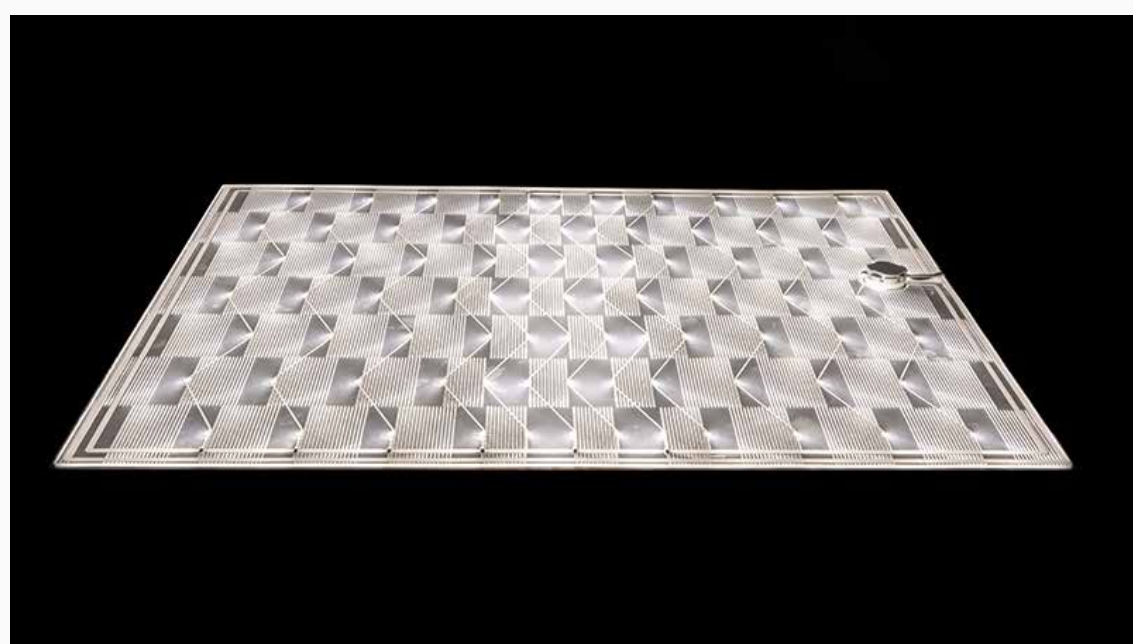

Dear Sir or Madam,

We are excited to unveiled the latest member of the multi-award-winning backlighting family, the Morar Outdoor and we cannot wait to tell you about its fantastic product benefits.

Morar Outdoor is a bright and yet application efficient, invisible lighting installation that is protected against ingress from dust and moisture. It is a unique and fully flexible backlighting display for retail, advertising and architectural lighting applications.

### Key features

- Application efficient, uniform backlighting
- Waterproof protection
- Flexible & Ultra-thin profile
- Modular design

The optimised design layout with our integrated optics offers a perfect solution for homogeneous backlighting. Due to the exceptional thin profile, the LED tile can be perfectly incorporated into architecture making it a virtually invisible light source. Morar Outdoor amplifies the visual impact of any architectural or retail application whether small installations to large-scale illumination thanks to its modular form factor and multi cutting options. The mechanically flexible design inspires numerous creative installs in almost any shape imaginable.

Available with a choice of LED colour temperatures and ample opportunities for customisation, Design LED Products' lighting solutions revolutionise the way we think about lighting interior and exterior spaces.

**Don't see what you need? We can customise it for you!**
